

MANAGE YOUR PATIENTS WHILE WE MANAGE YOUR IT

Let us show you what HIPAA Compliance means to Dedicated IT

HIPAA & COMPLIANCE

For a long time, it didn't matter as much - But times are changing. HIPAA isn't about them anymore. We manage the three biggest aspects of your compliance: Integrity of information, confidentiality, and availability. Dedicated IT can help you wherever you are at with compliance. Risk assessments, pen testing & MU gap analysis will audit proof your practice.

The penalties for violating HIPAA rules are severe and range from \$100 to \$50,000 per violation.

Trust is the most important factor when helping find the best solution for your practice. Let our service prove our commitment to your success.

KEEP YOUR COMPANY SECURE

Dedicated IT offers top of the line data encryption solutions that satisfy auditors. We provide HIPAA compliant off-site backups that are affordable and keep your patient data safe. Worried about a data breach? We can identify and help prevent staff members from putting protected data into any unsecure areas. Our solutions will provide you with peace of mind knowing that your ePHI is safe and secure.

ARE YOU READY FOR THE CLOUD?

Are you tired of having to deal with only having your server on site? Wouldn't it be nice to know your EMR & ePHI is secured, redundant and monitored 24/7/365? Or what if you have a new application and don't want to worry about having a new server to install it on? Dedicated IT has the perfect option for you! Dedicated IT offers best in class Healthcare cloud solutions to hundreds of practices just like yours. HIPAA Compliance built from the ground up.

Healthcare as a whole is under adverse economic factors that are drastically shrinking practices bottom line. We ensures providers are receiving the most up to date Cloud & IT solutions in the industry to meet regulations, increase cost containment, improve patient care, and increase staff efficiency to allow for peace of mind.
